Olive Pomace Processing Units

Polat Makina offers customized solutions for olive pomace facilities. Customized systems which are designed for high quality and high capacity product processing and can be operated semi-automatically and constantly bring profit for olive pomace facilities.

OLIVE POMACE SERIES AT A GLANCE

Series	Capacity
PMS 570 / PX160	160 ton/day
PXE 250	200 ton/day
PXE 500	400 ton/day

Polat Makina offers customized solutions for olive pomace facilities. Customized systems which are designed for high quality and high capacity product processing and can be operated semi-automatically and constantly bring profit for olive pomace facilities.

Customized design in compliance with PLC control and CE Standards provides the opportunity to obtain efficiency thanks to programmable kneading duration and easy usage.

Energy Efficiency

Thanks to the control of olive pomace duration and heat control, energy cost saving is provided and product in the best quality and efficiency is obtained.

Efficiency

While separating the oil, great attention is attached to the energy efficiency in machinery. Thanks to the new generation PX Series decanter designed by Polat Makina, the oil is separated in the most efficient way.

Hygiene and occupational safety

Machinery is designed and manufactured in compliance with food regulation. All surfaces which might contact with the product are manufactured from stainless steel of high quality. Great importance is attached to the occupational health and safety in the design of the machinery. Operator can realize the maintenance of the machinery safely. It can wash without requiring to stop the machinery thanks to the washing system adaptable if required.

Advantages of Polat Olive Pomace Series:

- Product portfolio in suitable capacities for your needs,
- Full protection against abrasion,
- High quality,
- High Capacity
- Kneading units suitable for different needs,
- Designs in compliance with food, occupational health and safety,
- Low energy consumption,
- Easy to use, low labor cost,
- Adjustable differential speed,
- Easy to install,
- Full automatic control,
- Low maintenance cost,
- Fast and solution oriented service.
